A Star Is Born Baby Wall

We know there's nothing that compares with the

birth of your child. No matter how many times you experience the miracle of birth, there will always be anxious moments, unforgettable memories and unbridled joy.

To help your family celebrate this unforgettable moment, the Henry County Health Center Foundation has developed *A Star Is Born Baby Wall*. The wall is located on the second floor of HCHC in the Maternity Services Department.

Stars may be purchased by parents, grandparents,

family members or groups of friends to honor the birth of a child at HCHC. Once your star has been engraved with the child's name, birthday and other information of your choice, it will be displayed on the *A Star Is Born Baby Wall*.

Personalized Stars

All contributions received from A Star Is Born Baby Wall will support health initiatives of the HCHC Foundation. Such initiatives include equipment purchases, continuing education for our nurses, doctors and other health professionals, and community wellness programs.

Baby Recognition

Each star is 4 inches in diameter and made of thick, durable acrylic. For a contribution of \$50, a star will be engraved with the child's name, birthday and the contributor's name. Stars will be displayed for 12 months on the Star Is Born Wall and then sent to the parents for the baby's birthday.
